DETAILED ACTION

Response to Amendment

This office Action is responsive to the Amendment filed December 19, 2007.

The rejection of claims 2-8 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention is withdrawn. The rejection claims 1-8 under 35 U.S.C. 103(a) as being unpatentable over Mitsuru et al. JP2002-313403 is overcome.

Allowable Subject Matter

Claims 1-8 allowed. The instant claims are allowable over the prior art of record, because the prior art is silent to a fuel cell system comprising a judgment unit judged whether or not water is accumulated in the water trap based on a pressure variation measured by the pressure measurement unit when the discharge valve is open.

The prior art such as Mitsuru is silent to the instant judgement unit.

Response to Arguments

Applicant' s arguments with respect to Mitsuru being silent to teaching a judgment unit are persuasive, and the rejection is overcome. However, withdrawn claims 9-16 are pending and the case can not be allowed until the claims are withdrawn. The claim set was elected with traverse, but the restriction was made final. The application will be allowed once the claims are withdrawn.

With respect to the 112 second rejection, the rejection is withdrawn because Applicant has replaced the conditional language with "wherein" to overcome indefiniteness as discussed in the Interview Summary of November 26, 2007.

Conclusion

This application is in condition for allowance except for the following formal matters:

Claims 9-16 are withdrawn and need to be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
